

CRITICAL INFORMATION SUMMARY

NBN

Buroserv's NBN plans deliver a broadband internet service over the NBN network to the network boundary point at your premises. The plans include unlimited uploads and downloads. A preconfigured Wi-Fi modem is included for self-installation. The price of the modem is dependent on the contract term you select. Information about the modem is available at www.buroserv.com.au.

Available terms are 1, 12 and 24 months.

You will need a 240V power supply for your modem. Once you connect an NBN service, you will not be able to move back to a PSTN or DSL service. Buroserv does not provide Priority Assistance. NBN services are only available in NBN enabled areas. An optional Voice Service is available. A telephone handset is required to use the Optional Voice Service. Handsets are not provided as part of the Optional Voice Service.

Actual throughput speeds may vary due to many factors including type/source of content being downloaded, hardware/software configuration, type of NBN technology, the number of simultaneous users on the network and the performance of interconnecting infrastructure not operated by Buroserv. Devices connected by Wi-Fi may experience slower speeds than those connected by a cable. Important information regarding speeds can be found at <http://www.buroserv.com.au/important-documents>. If your NBN service does not allow you to properly benefit from your speed tier, we will provide you with your maximum line speed, once it is available, along with alternative options. Options may include a price reduction or a release from your contract without penalty.
