

Customer Service Advice from Telstra

Delay due to severe weather events in parts of the Illawarra and South Coast Districts of New South Wales.

As previously notified by Telstra on Monday 11 April 2022, parts of the Illawarra and South Coast Districts of New South Wales were impacted by severe weather on or about Saturday 2 April 2022 through to Sunday 3 April 2022 and again Tuesday 5 April 2022 through to Thursday 7 April 2022. This event resulted in extensive damage to Telstra's telecommunications network. Due to the extent of damage to the Telstra network, the impact in the affected region has been greater than initially estimated, and as a consequence of the continued weather effects, the expected recovery date has now been extended to 22 May 2022.

The effect of these circumstances applies to an additional 100 services bringing the total number of services impacted to approximately 450 services. This number may increase as Telstra assesses the full effect of the severe weather conditions. Based on current information, the resumption date of normal service operations is expected to be 22 May 2022. This date is indicative only; Telstra customers should anticipate that some further delays may occur.

Telstra services are impacted in the area bounded by and including, but not limited to, the area starting at Werri Beach following the coastline south past Jervis Bay and Ulladulla to Pebbly Beach then northwest to Currowan. From Currowan the area heads northeast to Little Forest, west to Marlowe, northeast to Marulan, east to Tallong, northeast to Wildes Meadow then southeast back to Werri Beach. All suburbs and towns, off shore islands and coastal areas serviced by Telstra within these boundaries are encompassed.

How will this affect you?

Unfortunately your service may be affected and we may take longer than normal to fix telephone services or complete connections. Services in the area mentioned above with phone numbers in the following number ranges may have been affected:

We're sorry for any inconvenience this delay may cause but we can assure you we are working hard to get things back on track.

What else do you need to know?

Information as to the nature of the severe weather events, which included damaging winds and heavy rainfall which occurred in the affected regions can be sourced from the Bureau of Meteorology (BOM). The BOM issued Severe Weather Warnings regarding these events commencing from on or about Saturday 2 April 2022 through to Sunday 3 April 2022 and again Tuesday 5 April 2022 through to Thursday 7 April 2022. Additionally, these unusually severe weather events have been widely reported by most of the news media.

Due to this event, we're claiming an exemption under section 21 of the *Telecommunications (Customer Service Guarantee) Standard 2011*, including an exemption from the payment of compensation between **7 April 2022 to 22 May 2022** inclusive for any delays in fixing or connecting services, and the keeping of appointments relating to these activities in the impacted area.
